

INDEPENDENT AUDITOR'S REPORT

To the Members of Sarda Metals & Alloys Limited

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Sarda Metals & Alloys Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "Ind AS Financial Statements").

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the (state of affairs) financial position, profit or loss (financial performance including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls and ensuring their operating effectiveness and the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Ind AS financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the state of affairs (financial position) of the Company as at 31st March, 2018, its profit (financial performance including other comprehensive income), its cash flows and changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

(1) As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in "Annexure 1", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

(2) As required by Section 143(3) of the Act, we report that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
- c. The Balance Sheet, the Statement of Profit and Loss, Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
- d. In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act read with relevant rules issued thereunder;
- e. On the basis of written representations received from the directors as on March 31, 2018, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164 (2) of the Act;
- f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, we give our separate Report in "Annexure 2".
- g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- (i) The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements - Refer Note 11 on Contingent Liabilities to the Ind AS financial statements;
- (ii) The Company did not have any long-term contracts including derivative contracts. Hence, the question of any material foreseeable losses does not arise;
- (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE 1 TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of **Sarda Metals & Alloys Limited** on the financial statements for the year ended March 31, 2018]

- (i)
 - (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) During the year, the fixed assets of the Company have been physically verified by the management and as informed, no material discrepancies were noticed on such verification. In our opinion, the frequency of verification is reasonable having regard to the size of the Company and the nature of its assets.
 - (c) The title deeds of immovable properties recorded as fixed assets in the books of account of the Company are held in the name of the Company.
- (ii) The inventory has been physically verified by the management during the year. In our opinion, the frequency of verification is reasonable. As informed, no material discrepancies were noticed on physical verification carried out in raw-materials and stores and spares. However, the excess noticed in finished goods have been properly dealt with in the books of account.
- (iii) As informed, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Accordingly, paragraph 3 (iii)(a), 3 (iii)(b) and 3 (iii)(c) of the Order are not applicable to the Company.
- (iv) Based on information and explanation given to us in respect of loans, investments, guarantees and securities, the Company has complied with the provisions of Section 185 and 186 of the Act.
- (v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public within the provisions of Sections 73 to 76 of the Act and the rules framed there under.
- (vi) We have broadly reviewed the books of account maintained by the Company in respect of products where the maintenance of cost records has been specified by the Central Government under sub-section (1) of Section 148 of the Act and the rules framed there under and we are of the opinion that prima facie, the prescribed accounts and records have been made and maintained.
- (vii)
 - (a) The Company is generally regular in depositing with appropriate authorities, undisputed statutory dues including provident fund, employees' state insurance, income tax, sales tax, service tax, value added tax, goods and service tax, customs duty, excise duty, cess and any other material statutory dues applicable to it.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income tax, sales tax, service tax, value added tax, goods and service tax, customs duty, excise duty, cess and any other material statutory dues applicable to it, were outstanding, at the year end, for a period of more than six months from the date they became payable.

- (b) According to the information and explanation given to us, the dues outstanding with respect to, income tax, sales tax, service tax, value added tax, goods and service tax, customs duty, excise duty on account of any dispute, are as follows:

| Name of the statute | Nature of dues | Amount in Lakhs | Period to which the amount relates | Forum where dispute is pending | Remarks |
|--|------------------|-----------------|------------------------------------|---|---|
| Income Tax Act, 1961 | Income Tax | 86.57 | A.Y. 2012-13 | Commissioner of Income Tax (Appeals) | - |
| Income Tax Act, 1961 | Interest | 0.97 | A.Y. 2014-15 | Assessing Officer | - |
| Income Tax Act, 1961 | Income Tax | 87.51 | A.Y. 2015-16 | Commissioner of Income Tax (Appeals) | - |
| Directorate of Electrical Safety, Government of Andhra Pradesh | Electricity Duty | 883.73 | From Jan 2013 to Mar 2017 | Directorate of Electrical Safety and chief electrical inspector | Treated the liability as disputed one, on the basis of advise received from an independent expert |

- (viii) According to the information and explanations given to us, the Company has been regular in the repayment of loans or borrowings to banks except for a delay in payment of a part instalment of a loan, which the company had held back for want of resolution of its dispute with the bank, wherein the amount was receivable by the Company. Subsequent to the resolution of the dispute, the Company has paid the part instalment held back by it. Further, the company has not borrowed any amount from financial institutions or government and has not issued any debentures.
- (ix) In our opinion and according to the information and explanations given to us, during the year the Company has utilized the money raised by way of term loans for the purposes for which they were raised. Further, the Company has not raised money by way of public issue offer.
- (x) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of fraud by the Company or any fraud on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such instance by the management.

- (xi) According to the information and explanations given to us, managerial remuneration has been paid / provided in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company. Therefore, paragraph 3(xii) of the Order is not applicable to the Company.
- (xiii) According to the information and explanation given to us, all transactions entered into by the Company with the related parties are in compliance with Sections 177 and 188 of Act, where applicable and the details have been disclosed in the Financial Statements etc., as required by the applicable accounting standards.
- (xiv) The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Therefore, paragraph 3(xiv) of the Order is not applicable to the Company.
- (xv) According to the information and explanations given to us, the Company has not entered into any non-cash transactions with directors or persons connected with him during the year.
- (xvi) According to the information and explanation given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' in the Independent Auditor's Report of even date to the members of **Sarda Metals & Alloys Limited** on the financial statements for the year ended March 31, 2018]

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Sarda Metals & Alloys Limited** Company Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing specified under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

2 The above Cash Flow Statement has been prepared under the "Indirect Method" as set out in the Indian Accounting Standard (Ind AS - 7) - Statement of Cash Flow.

3 **Amendment to Ind AS 7**

The amendments to Ind AS 7 Statement of Cash Flow requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financial activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement. The amendment has become effective from April 1, 2017 and the required disclosure is made below:

(Amount In Rs. Lacs)

| Particulars | As at 31.03.2017 | Cash flow | | Non Cash changes | | As at 31.03.2018 |
|-----------------------------|---------------------|-----------------|-------------------|-----------------------|---------------------------|------------------|
| | | Proceeds | (Repayments) | Fair value Changes | Classification changes | |
| Long-Term Borrowings | 32,762.02 | 47.06 | (130.49) | 77.48 | (2,777.74) | 29,978.33 |
| Other Financial Liabilities | 2,052.58 | - | (2,056.05) | 3.47 | 2,777.74 | 2,777.74 |
| Short-Term Borrowings | 13,066.40 | 3,282.93 | (2,186.83) | | - | 14,162.50 |
| Total | 47,881.00 | 3,329.99 | (4,373.37) | 80.95 | - | 46,918.57 |

4 Figures in the bracket represents cash outflow

Company Secretary

Significant accounting policies and notes to the accounts

For financial year ended 31.03.2018

1 Company Overview

The Company is operating 2X33 MVA Ferro Alloys Furnaces backed by a 80 MW Captive Power Plant. The company is a leading manufacturer and exporter of Ferro Alloys enjoying Star Export House Status.

2 Significant Accounting Policies

Basis of preparation of financial statements

2.1 Statement of compliance

These financial statements are prepared in accordance with Indian Accounting Standards (Ind AS) and the provisions of the Companies Act, 2013 ('Act') (to the extent notified). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The financial statements are presented in Indian rupees rounded off to nearest lacs.

2.2 Basis of Measurement

The financial statements have been prepared under the historical cost convention and on accrual basis except for the following:

- a) certain financial assets and liabilities including derivative instruments measured at fair value
- b) defined benefit plans - plan assets measured at fair value

2.3 Use of estimate

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

3 Summary of significant accounting policies

3.1 Financial Instrument

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity of another entity.

3.1.1 Financial asset

i) Initial Recognition and measurement

All financial assets are recognised initially at fair value. Transaction costs that are attributable to the acquisition of the financial asset (other than financial assets recorded at fair value through profit or loss) are included in the fair value of the financial assets.

Where the fair value of a financial asset at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognised as gain or loss in the Statement of Profit and Loss at initial recognition. If the fair value is determined through a quoted market price in an active market for an identical asset (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using level 1 or 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognised as gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial asset.

Financial assets of the Company include investments in equity shares of associates, trade and other receivables, loans and advances to employees etc.

ii) Classification and subsequent measurement

For the purpose of subsequent measurement, financial assets of the Company are classified in the following categories:

- 1) financial assets measured at amortised cost
- 2) financial assets measured at fair value through other comprehensive income
- 3) financial assets measured at fair value through profit and loss

The classification of financial assets depends on the objective of the business model. Management determines the classification of its financial assets at initial recognition.

Financial instruments measured at amortised cost:

A financial instrument is measured at amortised cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables, bank deposits, security deposits, cash and cash equivalents, employee and other advances.

Financial instruments measured at fair value through other comprehensive income

A financial instrument shall be measured at fair value through other comprehensive income if both of the following conditions are fulfilled:

- (a) the objective of the business model is achieved by both collecting contractual cash flows and selling financial assets
- (b) the asset's contractual cash flow represent SPPI

Financial instruments included within FVTOCI category are measured initially as well as at each reporting period at fair value plus transaction costs. Fair value movements are recognised in other comprehensive income (OCI). However, the Company recognises interest income, impairment losses & reversals and foreign exchange gain loss in statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to profit and loss. Interest earned is recognised under the expected interest rate (EIR) model.

Financial instruments measured at fair value through profit and loss

Fair value through profit and loss is the residual category. Any financial instrument which does not meet the criteria for categorization as amortized cost or fair value through other comprehensive income is classified at FVTPL.

Financial instruments included within FVTPL category are measured initially as well as at each reporting period at fair value plus transaction costs. Fair value movements are recorded in statement of profit and loss.

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. Such election is made on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

iii) Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognised when:

- The rights to receive cash flows from the asset have been transferred, or
- The Company retains the contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

When the Company has transferred an asset, it evaluates whether it has substantially transferred all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. When the Company has not transferred substantially all the risks and rewards of ownership of a financial asset, the financial asset is derecognised.

When the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the entity has not retained control of the financial asset. When the entity retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement of the asset.

3.1.2 Investments

Investments in associates are measured at cost.

3.1.3 Trade receivables

Trade receivables that do not contain a significant financing component are measured at transaction price.

3.1.4 Financial liability

i) Initial recognition and measurement

All financial liabilities are recognised initially at fair value net of directly attributable transaction costs. The Company's financial liabilities include loans and borrowings, trade and other payables etc.

Where the fair value of a financial liability at initial recognition is different from its transaction price, the difference between the fair value and the transaction price is recognised as gain or loss in the Statement of Profit and Loss at initial recognition. If the fair value is determined through a quoted market price in an active market for an identical liability (i.e. level 1 input) or through a valuation technique that uses data from observable markets (i.e. level 2 input).

In case the fair value is not determined using level 1 or 2 input as mentioned above, the difference between the fair value and transaction price is deferred appropriately and recognised as gain or loss in the Statement of Profit and Loss only to the extent that such gain or loss arises due to a change in factor that market participants take into account when pricing the financial liability.

ii) Classification and subsequent measurement

For the purpose of subsequent measurement, financial instruments of the Company are classified in the following categories:

- 1) financial liabilities measured at amortised cost
- 2) financial liabilities measured at fair value through profit and loss and

Financial liabilities at amortised cost:

Financial liabilities at amortised cost represented by trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest method.

Financial liabilities at FVTPL:

Financial liabilities at FVTPL represented by contingent consideration are measured at fair value with all changes recognised in the statement of profit and loss.

Derecognition of financial liability

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of the new liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid is recognised in the Statement of Profit and Loss.

3.1.5 Loans and borrowings

Loans and borrowings are initially recognised at fair value net of transaction costs incurred. Subsequently, these are measured at amortised cost using the effective interest rate ('EIR') method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

3.1.6 Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. The amounts are unsecured and are usually paid within the normal trade payable cycle. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortized cost using the EIR model.

3.1.7 Derivatives

The Company uses derivative financial instruments such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss.

3.1.8**Fair Value**

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price paid that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All the assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy that categorises into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities (level 1 inputs) and lowest priority to unobservable inputs (level 3 inputs).

Level 1 - quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 - inputs that are unobservable for the asset or liability.

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation at the end of each reporting period and discloses the same.

3.1.9 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet only if there is a current enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.2 Property, plant and equipment

i) Transition to Ind AS

The Company has elected to exercise the option under Ind AS 101 of using the previous GAAP carrying amount of its plant, property, equipment as its deemed cost on the date of transition that is 01.04.2015 to Ind AS.

ii) Recognition and measurement

An item of Property, Plant and Equipment (PPE) that qualifies as an asset is measured on initial recognition at cost. Following initial recognition items of PPE are measured at cost less accumulated depreciation/ amortisation and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for its intended use. The Company identifies and determines cost of each part of an item of PPE separately if the part has a cost which is significant to the total cost of that item of PPE and has useful life that is materially different from that of the remaining item.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and recognised in the Statement of Profit and Loss. The residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively.

iii) Depreciation

Depreciation on each part of PPE has been provided based on life assigned to each asset in accordance with Schedule II of the Companies Act, 2013. Leased assets are amortized on a straight-line basis over the useful life of the asset or the remaining period of lease, whichever is earlier.

iv) Subsequent costs

Subsequent expenditure including cost of major overhaul and inspection is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of any component recognised as a separate component is derecognised when replaced. All other repairs and maintenance are recognised in profit or loss as incurred.

v) Spare parts

Items of spare parts, stand-by equipment and servicing equipment which meet the definition of property, plant and equipment are capitalized and depreciated on straight line method on prorata basis at the rates specified therein. Other spare parts are carried as inventory and recognized in the income statement on consumption.

3.3 Intangible assets

Intangible assets comprising of computer software, brands/ trademarks, mining rights expected to provide future economic benefits are stated at cost of acquisition/ implementation/ development less accumulated amortization.

Amortization

Cost of intangibles including related expenditures are amortised on a straight line basis over the estimated useful economic life.

3.4 Capital work in progress

Capital work in progress is stated at cost less accumulated impairment losses, if any.

3.5 Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

As a lessee

A lease is classified on the inception date as a finance or an operating lease. Leases under which the Company assumes substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the inception of the lease at lower of the fair value of the leased property or the present value of the minimum lease payments. Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability.

The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Leases under which substantially all the risks and rewards of ownership are not transferred to the Company are classified as operating leases. Lease payments under operating leases are recognised as an expense on a straight line basis in the statement of profit and loss over the lease term except where the lease payments are structured to increase in line with expected general inflation.

As a lessor

Lease payments under operating leases are recognised as an income on a straight line basis in the statement of profit and loss over the lease term except where the lease payments are structured to increase in line with expected general inflation. The respective leased assets are included in the balance sheet based on their nature.

3.6 Inventory

(i) Stores and spares are carried at Cost (net of GST, CENVAT and VAT Credits availed) on moving average basis .

(ii) Raw Materials are carried at cost (net of GST, CENVAT and VAT Credits availed) on moving average basis and net realizable value whichever is lower .However , raw materials held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

(iii) Finished , semi finished products and Stock-in-Trade produced or purchased by the Company are carried at lower of cost and net realizable value . Cost includes direct materials and labour cost and a proportion of manufacturing overheads. Cost of finished goods includes excise duty based on prevailing rate.

(iv) By products are valued at net realizable value .

Net realisable value is the estimated selling price in the ordinary course of business , less estimated cost of completion and estimated costs necessary to make the sale .

3.7 Government grants

Capital Grants are measured at amounts receivable from the Government which are non-refundable and are recognised, as per the Capital Approach prescribed under Ind AS 20 - "Accounting for Government Grants and Disclosure of Government Assistance", as retained earnings in reserves and surplus when it is received from the Government and the Company shall comply with the conditions associated with the grant.

3.8 Impairment

a) Financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets:

i) Financial assets that are debt instruments and are measured at amortised cost e.g. loans, deposits and trade receivables.

ii) Financial assets that are debt instruments and are measured at FVTOCI.

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12 month ECL.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the statement of profit and loss.

Lifetime ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/expense in the statement of profit and loss.

As a practical expedience the Company uses a provision matrix to determine the impairment loss on its trade receivables. The provision matrix is based on historically observed default rates and is adjusted for forward looking estimates. At every reporting date, the historically observed default rates are updated and changes in forward looking estimates are analysed.

b) Non-financial assets

The Company assesses at each reporting date whether there is any objective evidence that a non financial asset or a group of non financial assets is impaired. If any such indication exists, the Company estimates the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognised in profit or loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through profit or loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

3.9 Taxes

Income tax expense comprises current and deferred tax. Current tax expense is recognised in Statement of Profit and Loss except to the extent that it relates to items recognised directly in other comprehensive income or equity, in which case it is recognised in other comprehensive income or equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Current income taxes are recognized under "income tax payable" net of payments on account, or under "tax receivables" where there is a credit balance.

Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Deferred tax is recognised in profit or loss except to the extent that it relates to items recognised directly in other comprehensive income or equity, in which case it is recognised in other comprehensive income or equity.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Minimum Alternate Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. The company reviews the carrying amount for the MAT credit entitlement at each Balance Sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that the company will pay normal income tax during the specified period.

3.10 Employee benefits

The Company participates in various employee benefit plans. Post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Company's only obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial and investment risks fall on the employee. The expenditure for defined contribution plans is recognized as expense during the period when the employee provides service. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial and investment risks fall on the Company.

Contribution to Provident fund and Contributory pension fund are accounted for on accrual basis. Provident fund contributions are made to statutory provident fund.

Actuarial gains or losses are recognized in other comprehensive income. Further, the profit or loss does not include an expected return on plan assets. Instead net interest recognized in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognized as part of re-measurement of net defined liability or asset through other comprehensive income.

Remeasurements comprising actuarial gains or losses and return on plan assets (excluding amounts included in net interest on the net defined benefit liability) are not reclassified to profit or loss in subsequent periods.

3.11 Provisions and contingent liabilities

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Contingent liabilities are disclosed on the basis of judgment of the management/independent experts. These are reviewed at each balance sheet date and are adjusted to reflect the current management estimate.

3.12 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, in banks and demand deposits with banks, net of outstanding bank overdrafts that are repayable on demand, book overdraft and are considered part of the Company's cash management system.

3.13 Foreign currency transactions

The Company's financial statements are presented in INR which is also the functional currency of the Company.

Foreign currency transactions are recorded on initial recognition in the functional currency using the exchange rate at the date of the transaction. At each balance sheet date, foreign currency monetary items are reported using the closing exchange rate. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rate are recognised as income or expenses in the period in which they arise with the exception that exchange differences to the extent treated as borrowing costs are recognised accordingly .

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Outstanding loans repayable in foreign currency are restated at the year end exchange rate. Exchange gains and losses in respect of such restatement is accounted for as an income or expense except to the extent treated as borrowing costs

3.14 Revenue recognition

Revenue from sale of goods in the course of ordinary activities is measured at the fair value of the consideration received or receivable, net of return, trade discounts and volume rebates. Revenue is recognized when the significant risk and rewards of ownerships have been transferred to the buyer, recovery of the consideration is probable, the associated cost and possible return can be estimated reliably and there is no continuing effective control or managerial involvement with, the goods, and the amount can be measured reliably.

3.15 Other income

Interest income

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability.

Dividend income

Dividend income is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

3.16 Borrowing cost

Borrowing costs that are directly attributable to the acquisition, construction or erection of qualifying assets are capitalised as part of cost of such asset until such time that the assets are substantially ready for their intended use. Qualifying assets are assets which take a substantial period of time to get ready for their intended use or sale.

When the Company borrows funds specifically for the purpose of obtaining a qualifying asset, the borrowing costs incurred are capitalized. When Company borrows funds generally and uses them for the purpose of obtaining a qualifying asset, the capitalization of the borrowing costs is computed based on the weighted average cost of general borrowing that are outstanding during the period and used for the acquisition of the qualifying asset.

Capitalisation of borrowing costs ceases when substantially all the activities necessary to prepare the qualifying assets for their intended uses are complete. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs include exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

All other borrowing costs are recognised as an expense in the year in which they are incurred.

3.17 Earnings per share

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the parent by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit attributable to equity holders (after adjusting for interest on the convertible preference shares) by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

3.18 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker of the Company (CODM). The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company. Refer note 21 for details on segment information presented.

3.19 Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expense associated with investing or financing cash flow. The cash flows from operating, investing and financing activities of the Company are segregated.

3.20 Recent accounting pronouncements Standards issued but not yet effective

In March, 2018, the Ministry of Corporate Affairs (MCA) issued the Companies (Indian Accounting Standards) Amendment Rules, 2018, notifying Ind AS 115, Revenue from Contract with Customers, Appendix B to Ind AS 21, Foreign currency transactions and advance consideration and amendments to certain other standards. These amendments are in line with recent amendments made by International Accounting Standards Board (IASB). These amendments are applicable to the Company from April 1, 2018. The Company shall be adopting the amendments from their effective date.

| | - | - | 54,074.86 | 54,074.86 | - | - | - | - |

* Carrying Value and the fair value approximates.

B. Measurement of fair values

The table shown below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined below:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices)

- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

C. Valuation techniques

The following methods and assumptions were used to estimate the fair values

- 1) Fair value of the cash and short term deposits, current loans and advances and other current financial liabilities, short term borrowing from banks and other financial institutions and other similar items approximate their carrying value largely due to short term maturities of these instruments.
- 2) Long-term receivables/borrowings are evaluated by the Company based on parameters such as interest rates, specific country risk factors, individual credit worthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.

6 FINANCIAL RISK MANAGEMENT OBJECTIVE AND POLICIES

The Company's principal financial liabilities comprise loans and borrowings in foreign as well as domestic currency, trade payables and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments, loans, trade and other receivables, and cash and short-term deposits that derive directly from its operations. The Company also enters into derivative contracts.

The Company is exposed to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Interest rate risk

The Company's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. This note presents information about the risks associated with its financial instruments, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

Credit Risk

The Company is exposed to credit risk as a result of the risk of counterparties defaulting on their obligations. The Company's exposure to credit risk primarily relates to investments, accounts receivable and cash and cash equivalents. The Company monitors and limits its exposure to credit risk on a continuous basis. The Company's credit risk associated with accounts receivable is primarily related to party not able to settle their obligation as agreed. To manage this the Company periodically reviews the financial reliability of its customers, taking into account the financial condition, current economic trends and analysis of historical bad debts and ageing of accounts receivables.

Trade receivables

Trade receivables represent the most significant exposure to credit risk and are stated after an allowance for impairment.

Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and deposits which are readily convertible to cash. These are subject to insignificant risk of change in value or credit risk.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

| | <i>(Amount In Rs. Lacs)</i> | |
|-----------------------------|-----------------------------|-------------------|
| | 31.03.2018 | 31.03.2017 |
| Trade and other receivables | 6,316.30 | 5,638.11 |
| Investments | 0.28 | 0.28 |
| Cash and cash equivalents | 813.94 | 218.66 |

Impairment losses

Trade and other receivables (measured under life time excepted credit loss model)

| | <i>(Amount In Rs. Lacs)</i> | |
|--------------------------|-----------------------------|-------------------|
| | 31.03.2018 | 31.03.2017 |
| Opening balance | (13.69) | - |
| Provided during the year | - | (13.69) |
| Reversal of provision | (4.94) | - |
| Closing balance | (8.76) | (13.69) |

Ageing analysis

| | <i>(Amount In Rs. Lacs)</i> | |
|--------------------|-----------------------------|-------------------|
| | 31.03.2018 | 31.03.2017 |
| Upto 3 months | 4,301.52 | 5,114.10 |
| 3-6 months | - | - |
| More than 6 months | 2,014.78 | 523.65 |

No significant changes in estimation techniques or assumptions were made during the reporting period.

Liquidity risk

The Company is exposed to liquidity risk related to its ability to fund its obligations as they become due. The Company monitors and manages its liquidity risk to ensure access to sufficient funds to meet operational and financial requirements. The Company has access to credit facilities and debt capital markets and monitors cash balances daily. In relation to the Company's liquidity risk, the Company's policy is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions as they fall due while minimizing finance costs, without incurring unacceptable losses or risking damage to the Company's reputation.

Financing arrangements

The Company has access to following undrawn borrowing facilities at the end of the reporting period:

| 31.03.2018 | 31.03.2017 |
|-------------------|-------------------|
| - Nil - | - Nil - |

Maturities of financial liabilities

The contractual undiscounted cash flows of financial liabilities are as follows:

(Amount In Rs. Lacs)

| As at 31.03.2018 | Less than 1 year | 1-5 years | More than 5 Years | Total |
|-----------------------------|------------------|------------------|-------------------|------------------|
| Borrowings | 16,940.25 | 16,912.67 | 13,065.53 | 46,918.45 |
| Trade payables | 319.82 | - | - | 319.82 |
| Other financial liabilities | 2,828.88 | - | - | 2,828.88 |
| | 20,088.96 | 16,912.67 | 13,065.53 | 50,067.15 |

(Amount In Rs. Lacs)

| As at 31.03.2017 | Less than 1 year | 1-5 years | More than 5 Years | Total |
|-----------------------------|------------------|------------------|-------------------|------------------|
| Borrowings | 13,066.40 | 16,118.80 | 17,079.32 | 46,264.52 |
| Trade payables | 3,512.90 | - | - | 3,512.90 |
| Other financial liabilities | 4,585.99 | - | - | 4,585.99 |
| | 21,165.29 | 16,118.80 | 17,079.32 | 54,363.42 |

Interest rate risk

Interest rate risk is the risk that an upward movement in the interest rate would adversely effect the borrowing cost of the company. The Company is exposed to long term and short-term borrowings, Commercial Paper Program. The Company manages interest rate risk by monitoring its mix of fixed and floating rate instruments, and taking action as necessary to maintain an appropriate balance.

The exposure of the Company's borrowings to interest rate changes at the end of the reporting period are as follows:

a) Interest rate risk exposure

(Amount In Rs. Lacs)

| | 31.03.2018 | 31.03.2017 |
|--------------------------|------------|------------|
| Variable rate borrowings | 34,324.39 | 39,696.69 |
| Fixed rate borrowings | 13,040.88 | 8,701.36 |

b) Sensitivity analysis

Profit or loss estimate to higher/lower interest rate expense from borrowings as a result of changes in interest rates.

Impact on profit after tax

(Amount In Rs. Lacs)

| | 31.03.2018 | 31.03.2017 |
|--|------------|------------|
| Interest rates - increase by 70 basis points | (240.27) | (277.88) |
| Interest rates - decrease by 70 basis points | 240.27 | 277.88 |

c) Forex risk exposure

(Amount In Rs. Lacs)

| Particulars | 31.03.2018 | 31.03.2017 |
|---|-------------------|-------------------|
| Exports Debtors/Exports Orders in hand | 13,123.46 | 2,001.49 |
| Less: Financial Hedge | 847.24 | - |
| Net FCY Receivables (A) | 12,276.22 | 2,001.49 |

d) Sensitivity analysis

Impact on profit after tax

(Amount In Rs. Lacs)

| | 31.03.2018 | 31.03.2017 |
|---|------------|------------|
| Foreign exchange rates - increase by 1% | (46.28) | (83.61) |
| Foreign exchange rates - decrease by 1% | 46.28 | 83.61 |

7 a) CAPITAL MANAGEMENT

The Company's main objectives when managing capital are to:

- ensure ongoing access to funding to maintain, refurbish and expand the Business
- ensure sufficient liquidity is available (either through cash and cash equivalents, investments or committed credit facilities) to meet the needs of the business;
- ensure compliance with covenants related to its credit facilities and
- minimize finance costs while taking into consideration current and future industry, market and economic risks and conditions.
- safeguard its ability to continue as a going concern
- to maintain an efficient mix of debt and equity funding thus achieving an optimal capital structure and cost of capital.

The Board of Directors has the primary responsibility to maintain a strong capital base and reduce the cost of capital through prudent management of deployed funds and leveraging opportunities in domestic markets so as to maintain investor, creditor and market confidence and to sustain future development of the business.

For the purpose of Company's capital management, capital includes issued capital and all other equity reserves. The Company manages its capital structure in light of changes in the economic and regulatory environment and the requirements of the financial covenants.

The Company manages its capital on the basis of net debt to equity ratio which is net debt (total borrowings net of cash and cash equivalents) divided by total equity.

(Amount In Rs. Lacs)

| | 31.03.2018 | 31.03.2017 |
|---------------------------------|-------------------|-------------------|
| Total liabilities | 32,756.07 | 34,814.59 |
| Less : Cash and cash equivalent | 336.10 | 61.66 |
| Net debt | 32,419.97 | 34,752.93 |
| Total equity | 23,439.47 | 21,645.14 |
| Net debt to equity ratio | 1.38 | 1.61 |

The Company has complied with the covenants as per the terms of the major borrowing facilities throughout the reporting period.

8 INCOME TAX EXPENSES**i) Income tax recognised in profit or loss***(Amount In Rs Lacs)*

| a) Current tax expense | year ended 31.03.2018 | year ended 31.03.2017 |

| Actuarial gain/(loss) on account of experience adjustments | 3.90 | (4.18) |
| Total actuarial gain/(loss) recognised in OCI | (17.36) | (1.82) |
| Change in fair value of plan assets | | |
| Fair value of plan assets at the beginning of the year | NA | NA |
| Interest on plan assets | NA | NA |
| Contributions made | NA | NA |
| Benefits paid | NA | NA |
| Actuarial (loss)/gain on plan assets | NA | NA |
| Fair value of plan assets at the end of the year | NA | NA |

c) **Sensitivity analysis of significant assumptions**

The following table present a sensitivity analysis to one of the relevant actuarial assumption, holding other assumptions constant, showing how the defined benefit obligation would have been affected by changes in the relevant actuarial assumptions that were reasonably possible at the reporting date.

(Amount In Rs. Lacs)

| Particulars | 31 st March 2018 | 31 st March 2017 |
|------------------------|--------------------------------|--------------------------------|
| Discount rate | | |
| + 1% discount rate | 67.98 | 75.14 |
| - 1% discount rate | 79.68 | 89.69 |
| Salary increase | | |
| + 1% salary growth | 79.11 | 88.18 |
| - 1% salary growth | 68.33 | 76.23 |

d) **Experience adjustments**

| Particulars | 31 st March 2018 | 31 st March 2017 |
|---|--------------------------------|--------------------------------|
| Defined benefit obligation | 73.41 | 78.59 |
| Fair value of plan assets | | - |
| (Surplus)/deficit in plan assets | (73.41) | (78.59) |
| Experience adjustment on plan liabilities | 3.90 | (4.18) |
| Actual return on plan assets less interest on plan assets | | - |

The estimates of future salary increases considered in actuarial valuation takes into account inflation, seniority, promotion and other relevant factors.

e) **Details of plan assets : NA**

f) **Defined contribution plan :**

The Company has recognized the following amount in the statement of profit and loss contribution to provident fund (Employers contribution) during the year is Rs. 43.84 lacs (previous year : Rs 42.77 lacs).

g) The liability towards compensated absences (Earned leave) for the year ended 31st March, 2018 based on actuarial valuation carried out by using Projected Accrued Benefit Method resulted in increase in liability by Rs. 3.11 Lacs. (Previous year 6.08 Lacs)

Earned Leave and Casual Leave assumptions:

| Sr. No | Particulars | 31 st March 2018 | 31 st March 2017 |
